

Leading Lights in Urogynaecology – 18th-20th November 2010, Vienna

Dear EUGA members,

We are delighted to announce that following the success of last year, EUGA (European Urogynaecological Association) is holding a third 'Leading Lights in Urogynaecology' meeting in 18th-20th November 2010 in Vienna.

The programme will again serve to explore the latest hot topics in the field of Urogynaecology. The meeting aims to bring the latest thinking and clinical evidence from leaders in this field with approximately 250 Urogynaecologists attending from all around Europe. The aim is to bring greater audience participation to this event to encourage a dynamic learning environment and there will also be an abstract poster session to encourage up and coming Urogynaecologists to share their work.

This meeting will be sponsored by an unrestricted educational grant from Astellas, however the meeting will not have the brand of this or any other Pharmacological company visible at the meeting.

Secretariat services will be supplied by Ashley Communications. Below you can find all important details:

A) REGISTRATION

- Standard participant early fee	350 Eur
- Standard participant late fee (on and after October 18, 2010)	450 Eur
- EUGA members early fee	300 Eur
