Presentation

This is a course about Specialized Evaluation of Pelvic Floor Disorders focus on Urodynamic tests and Ultrasound.

There is a need for the education of the Gynaecology Specialists on Urogynaecology-Pelvic Floor Dysfunctions. From the Education Committee EUGA (European Urogynaecological Association), we have assessed the necessity to educate in the advanced diagnostic techniques for patients with pelvic floor disorders, specially Urodynamics

and Ultrasound for women with urinary incontinence, pelvic organ prolapse and other urogynaecological dysfunctions. The main education aim of this course is to increase the knowledge of the gynaecologists, with special interest for Urogynaecology, in the advanced diagnostic techniques.

The course will offer an overview from the basic knowledge of these techniques to advanced ones and how they can help for managing complex patient groups, as elderly, neurological, with voiding dysfunction.

Faculty

Sònia Anglès

Senior Specialist in Gynecology
Hospital Clínic Barcelona

Jordi Cassadó

Clinical Head of the Obstetrics and Gynaecology
Department at the University Hospital Mútua Terrassa

Montserrat Espuña-Pons

Emeritus Senior Consultant in O&G
Hospital Clínic Barcelona

Angela Rantell

Consultant Nurse, Urogynaecology
King's College Hospital, London

Dudley Robinson

Consultant Surgeon in Urogynaecology and
Gynaecology at King's College Hospital, London

Cristina Ros

Consultant in Gynecology
Hospital Clínic Barcelona

Kamil Svabik

Specialist in Obstetrics and Gynaecology
First Faculty of Medicine, Charles University Prague

Venue

Hospital Clínic Barcelona

C. de Villarroel, 170, 08036 Barcelona

23 January 2025

Urodynamics

Session I: setting the scene

9.00–9.10	Welcome and introduction Montserrat Espuña-Pons	10.10–10.30	Initial assessment and management of lower urinary tract dysfunction Angela Rantell
9.10–9.30	Understanding urodynamics: a basic science perspective Montserrat Espuña-Pons	10.30–11.00	Clinical cases: initial assessment and indications for urodynamics Sònia Anglès, Montserrat Espuña-Pons
9.30–9.50	Lower urinary tract terminology and good urodynamics practice (ICS) Dudley Robinson	11.00–11.30	Break
9.50–10.10	Indications for urodynamics Dudley Robinson

Urodynamics

Session II: urodynamic investigations: simple to complex

11.30–11.50	<p>The role of basic urodynamics: uroflowmetry, filling cystometry, pressure flow studies</p> <p>Angela Rantell</p>
11.50–12.10	<p>Systematic approach to interpretation of standard traces</p> <p>Sònia Anglès, Montserrat Espuña-Pons</p>
12.10–12.30	<p>Managing specialist patient groups: elderly patients, neurological patients, urogenital prolapse, voiding dysfunction</p> <p>Dudley Robinson, Angela Rantell</p>

12.30–13.30	<p>Clinical cases</p> <p>Sònia Anglès, Montserrat Espuña-Pons</p>
13.30–14.30	<p>Lunch</p>

Thursday
23 January 2025

Session III: practical session

- 14.30–15.00 **Setting up the equipment and trouble shooting. Systematic approach to reporting (Good UDS Practice)**
Angela Rantell
- 15.00–15.30 **The role of advanced urodynamics: videocystourethrography, ambulatory urodynamics, urethral function testing**
Dudley Robinson
- 15.30–16.00 **Clinical cases**
Sònia Anglès, Montserrat España-Pons
- 16.00–16.30 **How to describe a report of urodynamics**
Sònia Anglès

Urodynamics

Session IV: Introduction to pelvic floor imaging

- 16.30–16.45 **Limits of the Urodynamics**
Sònia Anglès
- 16.45–17.30 **State of the art: evidence on imaging diagnosis pelvic floor disorders**
Montserrat España-Pons

Friday
24 January 2025

Session I: methodology

- 9.00–9.15 **Welcome and introduction**
Cristina Ros
- 9.15–9.35 **Technical aspects for pelvic floor ultrasound**
Jordi Cassadó
- 9.35–10.35 **Ultrasound and urinary incontinence: how to evaluate urethral and bladder parameters, suburethral slings and clinical applications**
Cristina Ros
- 10.35–11.00 **Management of slings complications**
Cristina Ros
- 11.00–11.30 **Break**

Pelvic floor ultrasound

Session II: ultrasound and genital prolapse

- 11.30–12.30 **Ultrasound and genital prolapse: how to evaluate levator ani defects, genital prolapse and meshes**
- 11.30–11.50 – How to evaluate genital prolapse by ultrasound – Cristina Ros, Kamil Svabik
- 11.50–12.10 – How to evaluate levator ani defects by ultrasound – Jordi Cassadó
- 12.10–12.30 – Ultrasound for the assessment of meshes for pelvic organ prolapse surgery – Cristina Ros, Kamil Svabik

Pelvic floor ultrasound

Session III: ultrasound and posterior disorders

12.30–13.10 **Ultrasound and faecal incontinence: how to evaluate anal sphincter complex and clinical applications**

12.30–12.50 – Anal sphincter complex by 3D-endoanal ultrasound – **Cristina Ros**

12.50–13.10 – Anal sphincter complex by 2D and 3D-transperineal ultrasound – **Kamil Svabik**

13.10–13.30 **Ultrasound and obstructed defecation: Ecodefecography**
Cristina Ros

13.30–14.30 **Lunch**

14.30–15.00 **Pelvic floor ultrasound and postpartum**
Cristina Ros

Session IV: workshops: interactive and practical sessions

15.00–15.30 **How to describe a report of pelvic floor ultrasound**
Cristina Ros

15.30–17.00 **Clinical cases: UI, POP, sling and meshes and postpartum**
Cristina Ros, Jordi Cassadó, Kamil Svabik
